Name of the Topic : "Future Dental Professional Programs"

Date: 16/11/2016

Time: 10:00 AM – 5 PM

Venue : Lecture Hall No-3, School of Dental Sciences, KIMSDU, Karad

Name of the Speaker : Uravashi.V.Naik, Associate Professor, department Pedodontics and Preventive Dentistry, Bapuji Dental College and Hospital, Davangere

Dr. Ashwin Rao, Associate Professor, Department Of Pedodontics, College of Dental Sciences, Mangalore, Manipal University.

Dr. Nagaveni N. D. Professor, Department Pedodontics and Preventive Dentistry, College of Dental Sciences, Davangere

Registration Kits distributed : 326 samples

No. of Participant : 326

Introduction of Programme : Colgate and Indian Dental Association have initiated a Colgate Future Dental Professional Program lecture series to educate the BDS students about basic and advanced trends in dentistry. As a part of this initiative, Department of Periodontology in association with Colgate Pvt Ltd has conducted this lecture series on 16 th November 2016 at the Lecture hall no.3 in School Of Dental Sciences.

The lecture was mainly aimed at III year, Final Year BDS students and Interns. A total of 326 students attended the program. All the participants were handed over registration kit which included bag, diary, pen, and a sample of tooth brush and toothpaste.

The first lecture was delivered by Dr, Saraswathi.V.Naik on topic What After BDS?? for the interns. The lecture covered all the career options that are available to a Dentist after Denial Graduation with emphasis on tips and tricks in preparation for National Eligibility cum Entrance Test. All students were made aware about opportunities in various private and government sectors in India as well as abroad in countries like USA, UK, Canada etc.

Next lecture was delivered by Dr. Ashwin Rao for 3rd BOS students on Clinical postings: A new beginning. The lecture was very informative and included all the important aspects like soft and hard skills to be learned as dental students during their clinical postings. The information was conveyed very innovatively through lot of dramatized photographs to create all possible clinical scenarios with Do's and Don'ts to be followed in decent dental practice.

Third lecture was delivered by Dr. Nagaveni N. B. on Dental Hypersensitivity for 4th BDS students. The lecture was collaborative and included pathophysiology of dental hypersensitivity with conventional and advanced modes of treatments to manage it. Morphometry of toothbrush was discussed and shown to students using magnifying lens for better understanding of nonabrasive tooth brushes.

DEPARTMENT OF PATHOLOGY
CME on Oncopathology
Report

Date: - 21st Feb, 2016 Sunday

Department of Pathology organized one day CME on Oncopathology "Approach to CNS Lesions" by Guest speaker Dr. Meghana Chougule, Consulting Pathologist from DR. D. Y. Patil University, Kolhapur. She gave excellent presentation on various CNS lesions with emphasis on recent update on CNS Neoplasms with advances in laboratory diagnostic methods using ancillary techniques. Detail discussion on various CNS tumor markers & role of IHC was done. Recently added CNS tumors in new WHO classification were discussed.

DR.Chougule also conducted Slide Seminar on CNS with various non-neoplastic & neoplastic lesions. Interesting cases with Differential diagnosis on CNS lymphomas, meningiomas, variants of astrocytomas, medulloblastoma rare subtypes, vascular neoplasm etc.

There was lecture by DR.Sujata R. Kanetkar on "Oral Squamous Lesions – How to minimize pitfalls." DR.S.R.Kanetkar described variety of oral squamous lesions and use of different biopsy techniques for the accurate diagnosis.

She explained importance of every step in histopathology using different case studies. She also elaborated prognostic Significance. DR. Mrs. S. R. Desai & DR.M.A. Patil Chaired the Sessions.

E Poster Competition was also conducted in the CME. DR. Mahadeo Mane Associate Prof D.Y. Patil Medical College was the Judge for the same.

Residents from Department of Pathology, Surgery & Neurosurgery of KIMS, Karad along with resident from Oral Pathology department of School of Dental Sciences attended the CME. From DR. D .Y. Patil Medical College three Teaching Staff & six residents attended the CME.

For this academic event Felicitation & vote of thanks was given by Dr. Sunil V. Jagtap, Professor Department of Pathology.

International Multidisciplinary CME on Breast Cancer , 25th Jan 2017

Report

International Multidisciplinary CME on Breast Cancer was organized by Krishna Institute of Medical Sciences Deemed University, Karad, India and was conducted on 25th Jan 2017 at Krishna Institute of Medical Sciences Deemed to be University, Karad.

It was a collaborative event hosted by Department of Pathology and with involvement of department of Surgery and Oncology.

On 25th Jan, the CME was inaugurated at the hands of Hon'ble Dr.Suresh Bhosale Hon'ble Chairman & Managing Trustee KCT.

The inaugural function was followed by a welcome speech by Dr. S.R.Kanetkar, Prof & Head, Department of Pathology, KIMS, Karad followed by this, our first guest speaker was introduced by Dr. Anand Gudur, Head Medical Oncology Department, KH & MRC, Karad.

The first talk was delivered by Dr. Prashant Lad, a young and dynamic Surgical Oncologist from Kolhapur. He talked about "Evaluation of suspected Breast Cancer". He beautifully explained the approach towards diagnosing suspicious breast cancer cases and threw light on clinical & radiological aspect of such cases.

The next to speak was Dr. C.B.Koppiker, a renowned and experienced Surgical Oncologist from, Pune. Topic of his lecture was 'Changing paradigm of Cancer Breast Surgery'. His talk was based on treatment part, various surgical options for carcinoma breast and the changing trends in this field.

This topic lead to a question answer session and discussion amongst various senior faculties attending the CME and our speaker.

Our next speaker was Dr. Megha Joshi, our esteemed guest from USA. She is a Practicing Pathologist from USA and our International Visiting Faculty.

Dr.Joshi talked about "What is new in breast cancer diagnosis" and "Near misses in breast carcinoma". It was a wonderful talk which was focused on newer techniques and advanced modalities in breast cancer diagnosis and how to avoid errors while diagnosing carcinoma breast.

This was followed by Dr. Rashmi Gudur's lecture on "Tailoring Chemotherapy of breast cancer". Dr. Rashmi Gudur is a well known Medical Oncologist from KH & MRC, Karad. Dr. Gudur spoke about how to manage doses, select chemotherapeutic agents and case based approach while treating carcinoma breast cases.

The post lunch session was a "symposium on management of Cancer Breast – case based approach", which was conducted by Dr. Shriniketan Kale, a young and enthusiastic Surgical Oncologist from Miraj. In the panel discussion various faculties and guests participated. The panelists were – 1) Dr. Digvijay Patil, Surgical Oncologist, KH & MRC 2) Dr. Rashmi Gudur, Medical Oncologist, KH & MRC. 3) Dr. Vikas Gosavi, Senior Surgical Oncologist, Miraj. 4) Dr. Dinesh Badakh, Radiotherapist, Miraj. 5) Dr. Megha Joshi & Dr. Mrs. Rugvedita Parakh from USA.

This panel discussion was moderated by Dr. Anand Gudur, Head Department of Medical Oncology, KH & MRC.

Finally, the CME ended with a vote of thanks delivered by Dr. S.R. Kanetkar.

REPORT OF 'Symposium – Alcohol De- addiction'

The Symposium – Alcohol De- addiction was organized on 4th March 2017 at KIMSDU with the aim of teach, train and transfer. The symposium started with basic changes in brain because of alcohol, through to the expression of these neurobiological changes, to its overall effects on the psychology of the patients. The Symposium was organized by Dept of Pharmacology, primarily for clinicians, students who included doctors, dentists & nurses of Krishna hospital.

Chief Guest of the CME, Hon Dr Animish Chavan, inaugurated the conference with invocation of Almighty, lamp lighting and Inaugural address.

A total of 21 participants enrolled, successfully completed the program and received the certificate for the Symposium – Alcohol De- addiction.

Program started with 9.00am to 10.30 am Registration, Breakfast and Pretest. There was 10:30 am to 11:00 am Inauguration.

The faculties spoke as per the program.

Part I –Understanding Alcohol Addiction		
i)	Neurobiological Aspects Dr.Animish Chavan	10.30to 11.15 am
ii)	Clinical aspects Dr.Vaishali Chavan	11.15 to 12.00 noon
iii)	Psychological aspects - Prachi Mastoli	12.00 to 12.30 pm.
	Question Answer Session	12.30 to 1.00 pm.
Part II – Fighting against alcohol addiction		
i)	Medical management Dr.Animish Chavan	2 to 2.45 pm.
ii)	Family therapy and REBT Dr.Vaishali Chavan	2 . 45 to 3.15 pm.
iii)	Psychological management - Prachi Mastoli	3.15 to 3.45 pm
	Question Answer Session	3.45 to 4.00pm.

The breaks were as 1:00 pm to 2:00 pm Lunch Break, 4:30 pm to 4:45 pm Tea Break.

Thanks to staff members, Dean's office, IT dept, Electrical Dept, Civil office and all others for their valuable support. We also thank KIMS University Vice Chancellor, Registrar and Finance's Office for their timely help. Pre-test & Post test was conducted and analysis was done.

0940-0950	Algorithmic Approach to a Hair Loss Patient	Dr S Murugusundaram
0950-1020	How I Manage Hair Loss in Female Patients	Dr S Murugusundaram
1020-1030	Q&A, Discussion & Interaction	Dr S Murugusundaram
1030-1045	Managing Scarring Alopecia	Dr S Murugusundaram
1045-1100	Investigations : Which Ones & When	Dr S Murugusundaram
1100-1115	Trichoscopy in Daily Practice	Dr S Murugusundaram
1115-1130	Q&A, Discussion & Interaction	Dr S Murugusundaram
1130-1145	Tea & Snacks	
1145-1215	Challenges & Management of Androgenetic Alopecia	Dr B S Chandrashekar
1215-1225	Q&A, Discussion & Interaction	
1225-1245	Procedures – PRP, LLLT, ILS, Micro-Needling	Dr Jagdish Sakhiya
1245-1300	Hair Transplant : What Every Dermatologist Should Know	Dr Pradeep Sethi
1300-1315	Q&A, Discussion & Interaction	
1315-1400	Lunch	
1400-1415	Alopecia Areata: Common Yet Intriguing	Dr B S Chandrashekar
1415-1430	Counselling and Retaining Hair Loss Patients	Dr Jagdish Sakhiya
1430-1445	The Art & Science of Hair Transplant	Dr Pradeep Sethi
1445-1500	Q&A, Discussion & Interaction	
1500-1515	Tea	
1515-1530	Commerce in Trichology – How to increase its share in your Practice	Dr Jagdish Sakhiya
1530-1545	Role of Nutritional Supplements & Diet	Dr B S Chandrashekar
1545-1600	Good Hair Transplant – Justifying the Cost	Dr Pradeep Sethi
1600-1615	Q&A, Discussion & Interaction	
1615-1630	Vote of Thanks

CME on Master class on Hair Loss Management

26 March 2017

The objective of the programme was to review and analyse different therapeutic options available for the treatment of hair loss.

1. Total number of delegates registered were 131 (including external delegates), excluding speakers.
2. The CME was hosted by various faculty of KIMS Karad.
3. The CME included classes on basics of hair loss, review of treatment options available, evaluation of available treatment options.
4. Scarring alopecia, androgenic alopecia, alopecia areata and treatment options were discussed. Photographic & video demonstration was done along with the classes.
5. Lectures were conducted as per schedule & relevant literature references were also discussed, along with empirical treatment.
6. Dr Murugusundaran (Chennai), Dr B S Chandrashekhar (Bangalore), Dr Jagdish Sakhiya (Surat), Dr Pradeep Sethi (New Delhi) shared their professional experience on hair loss along with the current approaches.
7. Pre test & After CME Post-test was conducted in which the performance of delegates improved.

MCI Revised Basic Workshop

Programme

Day 1: 25.04.2017

Time	Session	Objectives	Faculty
9:00	Pre test. Introduction: ice breaking and Group Dynamics	Understand and apply concepts of group dynamics and team based functioning in teaching and learning	Dr.Mrs. K.C. Wingkar
10:00	System's Approach, Principles of adult learning, Learning process	a. Use principles of adult learning in the teaching learning process b. Use the system's approach for instructional design	Dr. Mrs. Harsha V. Patil
11.15	Tea		
11:30	Goals, roles and Competencies: CBME	a. define goals, roles and competencies and explain the relationship between each other b. elaborate the principles of competency based learning	Dr. U.T. Kumbhar
12:15	The IMG – Goals, roles and Competencies	a. be sensitised to the goals, roles and global competencies as developed by the Medical Council of India	Dr. V.C. Patil
12:30	Learning domains and progression of learning	a. classify and define learning domains b. demonstrate a basic understanding of hierarchy of knowledge progression	Dr. A.G. Joshi
13:00	Lunch		
13:45	Objectives - Writing objectives - Developing objectives from competencies, linking learning and assessment with competencies	a. differentiate competencies from objectives b. develop objectives from different competencies c. explain the relationship between objectives, learning and assessment	Dr. Sanjay S. Patil
14:45	Workshop on writing objectives	a. develop objectives from competencies and specify the domain and the skill level	Dr. R. B. Gunaki

15:45	Tea		
16:00	Introduction to assessment	a. elaborate the principles and types of assessment b. explain the utility of assessment	Dr. U.T. Kumbhar
16:45	Close		

Day 2: 26.04.2017

Time	Session	Objectives	Faculty
9:00	Choosing a teaching method for objectives and competencies – Workshop	choose the appropriate teaching method for various objectives and competencies	Dr. Mrs. Harsha V. Patil
10:30	Tea Break		
10:45	Interactive and Innovative teaching methods including Large Group (Demo), Small Group (with demo) and appropriate use of media	a. use the principles of interactive learning in a large group b. use the principles of interactive learning in a small group c. choose appropriate media for a given learning session	Dr. A.G. Joshi
12:30	Writing a lesson plan	develop a lesson plan appropriate to the objectives and teaching learning method	Dr. Mrs. K.C. Wingkar,
13:15	Lunch		
14:00	Assessment planning and quality assurance, Writing the correct essay question, short answer question and MCQ	a. write an appropriate essay question b. write an appropriate short answer question c. write an appropriate MCQ	Dr. V.C. Patil
16:00	Tea break		
16:15	Internal assessment and Formative assessment	develop a plan for internal assessment and formative assessment	Dr. Sanjay S. Patil Dr. U.T. Kumbhar

Day 3: 27.04.2017

Time	Session	Objectives	Faculty
9:00	Reflection and Narrative	a. Demonstrate the ability to write reflection & narrative	Dr. Mrs. Harsha V. Patil
10:00	Matching assessment to competency, objectives and learning Workshop - Choosing the right assessment	choose the right assessment method for a given objective/ competency and learning method	Dr. U.T. Kumbhar
11:00	Tea Break		
11:15	Effective clinical and practical skill teaching	a. teach skills effectively b. teaching skills at the workplace c. use a skills lab effectively	Dr. A.G. Joshi
12:15	Assessment of clinical and practical skills	a. assess skills effectively b. assess skills at the workplace c. use a skills lab to assess competency in skills d. design a skills assessment station	Dr. V.C. Patil
13:15	Lunch		
13:45	Assessment of clinical skills cont..		Dr. V.C. Patil
14:45	Improving SDL through technology	a. promote self directed learning in students b. use technology to improve self directed learning	Dr. U.T. Kumbhar
15:15	Tea Break		
15:30	Feedback	provide effective feedback to students	Dr. Mrs. K.C. Wingkar
16:00	Educational networking for growth	a. understand avenues for growth in education b. create networks in education	Dr. R.B. Gunaki
16:45	Post test and Closing.		

KRISHNA INSTITUTE OF MEDICAL SCIENCES, KARAD.

MCI Revised Basic Workshop
Report

30.04.2017

Objectives

- 1) To sensitize the participants with Goal, roles and competencies developed by MCI.
- 2) To demonstrate basic understanding of hierarchy of knowledge progression.
- 3) To help the participants in choosing appropriate teaching method for various objectives and competencies
- 4) To explain different assessment methods and direct them to choose right assessment method.
- 5) To demonstrate use of skills lab.

Krishna Institute of Medical Sciences, Karad conducted its Revised Basic Course workshop from 25th to 27th April 2017. A total of 30 participants from varied disciplines attended the workshop. Of the 30 participants, there were 18 Professors, 07 Associate Professors and 05 Assistant Professors attending the workshop. We are grateful to Medical Council of India for granting us permission to conduct the workshop. Dr.Payal K.Bansal, regional Head of MET department at Teacher's training center, Aundh, Pune was the observer for the workshop.

The MEU faculty at KIMS conducted coordination meetings prior to the workshop to plan the workshop and the sessions. During the workshop, the sessions were conducted using "Hands on" examples, role plays and interactive methods of teaching learning. Basics of principles of teaching technologies were discussed and explained to the participants. The workshop ended where the participants were motivated to implement the principles in their respective departments. The post test showed a significant improvement. The evaluation of participants showed a significant change in behaviour and learning as seen in the evaluation forms and pre-post tests. The Learning gain was 53%.

Event Report

Name of the Topic : “SETTING UP OF A PAEDODONTIC CLINIC”

Date: 28/06/2017

Time: 10:00 AM – 4 PM

Venue : Lecture Hall No-3, School of Dental Sciences, KIMSDU, Karad

Name of the Speaker : Dr. Anil Patil

No. of Participant : 70

Introduction of Programme : The Department of Paedodontics & Preventive Dentistry on 28th JUNE 2017, Wednesday conducted a Guest lecture by Dr. Anil Patil, who has delivered many lectures at National and International platforms. He is working as Reader in department of Paedodontics & Preventive Dentistry at Bharati Vidyapeeth Dental College, Sangli. He delivered a lecture on 'SETTING UP OF A PAEDODONTIC CLINIC', keeping a focus on 'child friendly' clinical set up. He explained how the paedodontic clinic differs from the routine clinic which motivated the students and enlightened them to learn more about the Paedodontic practice management. It was a great learning experience.

Includes Level of Event – College level

Organized Individually by : Department of Paedodontics & Preventive Dentistry, School Of Dental Sciences, Karad

Schedule of the Programme : Introduction of speaker followed by main lecture and felicitation of the guest speaker

Objectives of the Programme : 1. Keeping a focus on 'child friendly' clinical set up.
2. how the paedodontic clinic differs from the routine clinic

Brief Description of the Programme : The guest lecture was concluded on a good note. Dr. Anil Patil was presented with a token of appreciation in the form of a memento. He expressed his deepest gratitude and pleasure for being able to present his ideas and views. The whole programme was a big success

Think Tank on Respectful Maternity Care and Human Rights

Exposure of postgraduate students through participation in a brain-storming session on the theme, '**Respectful maternity care and human rights**' which opened opportunity for them to share their clinical experience, evaluate their current practice in face of practice standards and competencies and comprehend the change required. The students could openly interact with experts, heads of the departments, faculty members, clinical staff of the departments of Pediatrics, Obstetrics and gynecology, Psychiatry, Nursing and Physiotherapy.

Members present for the Think tank were Hon'ble Vice Chancellor Dr.Neelima Malik, Dr. R.P.Patange, Dr.Aundhkar, Dr.Varadhrajulu, Dr. Vasantmeghna Murthy, Dr.Asha Jadhav, Dr.Vaishali Mohite, Dr.Sunita Tata, Dr.Mrs.Khanwelkar, faculty members of all concerned disciplines, staff nurses, nursing educators, counselors and Post graduate students of dept.of Obgyn., Pediatrics and Nursing.

19.04.2017	◆ THINK-TANK ◆
Theme : Quality Initiatives towards safe motherhood: The way forward' Time : 10.00am to 4.30pm Venue : Education technology Cell, KIMS, 3 rd floor Moderator : Ms.Inderjeet Kaur	
AIM:	1] Pool ideas to draw a feasible road-map with probable time-lines for accomplishment of the initiatives undertaken. 2] Explore possibility of a MOU with Fernandez Hospitals for competency-building opportunities for staff and students of KIMSDU.
MATTERS FOR BRAIN-STORMING:	
10.00 am to 10.50 am	<ul style="list-style-type: none">✓ Professional midwifery training options✓ Curriculum for training : Duration and training modules *Summary
10.50-11.00 am	Coffee break
11.00 am to 12.00 noon	<ul style="list-style-type: none">✓ Challenges of promoting natural birth in a high volume setting.✓ Road map with time lines to achieve this goal. *Summary
12.00N- 12.10pm	Stretch break

REGISTRAR

Krishna Institute of Medical Sciences

12.10- 1.00 pm	✓ The need for antenatal childbirth classes to help prepare couples for natural birth and non pharmacological pain relief options.
	*Summary
1.00-2.00 pm	LUNCH BREAK
2.00- 2.50PM	✓ Paramount importance of inculcating a culture of team spirit where respect and kindness form the hallmarks ✓ Use of evidence in practice and to form guidelines/protocols for ALL to use. *Summary
2.50-3.00 pm	Stretch break
3.00- 4.00 pm	✓ Maternity dashboard to help keep a tab on the status of quality indicators. ✓ Consideration of a pilot project on newer models of maternity care which will be scientifically and ethically approved .
4.00-4.30 pm	Summarisation, conclusion and drawing-up a white paper
4.30 pm	Coffee and snacks

SUMMARY, CONCLUSION AND A WHITE PAPER

All members with deep thought, exchange of ideas, evidence and with common consensus agreed upon the following to be adopted in our practice at Krishna Hospital and KIMSDU towards enhancement of quality in rendering safe motherhood care.

SESSION 1

10.00 am to 10.50 am

Themes for discussion :

- ✓ Professional midwifery training options
- ✓ Curriculum for training : Duration and training modules

Outcomes :

Resolutions for preparation of separate cadre of midwives

- 7 Competencies of a midwife to be included in the training program of the Midwives.
- Midwives to be trained in handling basic obstetric emergencies related to pregnancy and child birth with specific CERTIFICATION PROGRAM in specific emergencies.
- Every year there should be an appraisal with well-defined criteria (A 360 degree appraisal). We shall formulate the internal appraisal board.
- Midwives to participate in research along with the obstetrician and their involvement in the audit

- Midwives will remain under the cover of obstetrician for clinical risk management
- Only low risk mothers will be managed by the midwives independently
- Continuous Personal professional development will be expected of every midwife
- Curriculum should include knowledge about legislations in the country
- A Pilot study will be run pertaining to the training and outcome of the training.
- Medium of instruction will be English and Classes for Basic English language will be arranged.
- AGE CRITERIA for admission in midwifery program (a policy decision)
- Due recognition to be given to the Midwives in order to make a unique cadre for the midwives and give them a good remuneration (a policy issue)
- Minimum 18 months training followed by 6 months of intensive internship
- Introduce them as the PROFESSIONAL MIDWIFE cadre

Other clauses agreed upon during the session were:

- Child birth education will be given by the midwives and physiotherapist together
- Plan for a handover involving the doctors and nurses together
- Concept of HEALTH VISITORS to be considered in our scenario to bridge need of continued health care and early diagnosis of postpartum depression in the post natal period (a long term goal)

SESSION 2 and 3

11.00 am to 1.00 pm

Themes for discussion :

- ✓ Challenges of promoting natural birth in a high volume setting.
- ✓ Road map with time lines to achieve this goal.
- ✓ The need for antenatal childbirth classes to help prepare couples for natural birth and non pharmacological pain relief options.

Outcomes :

Resolutions towards Natural birthing

- Separate area for natural birthing, dedicated space for patients in latent phase ;equipped with birthing ball, rebozo,squatting bars etc.
- Initial triage is important: GREEN,YELLOW,RED. Assessed withing first 15 minutes of admission. very important step. Adopt the Traffic light system (Courtesy Fernandez Hospital)
- Non pharmacological methods for pain relief to be adopted
- FHR monitoring 4-6 hrs apart for the low risk mothers

- Telephone triage (in the pipeline)
- Helpline number (in the pipeline)
- AUDITS , look into data to make improvements (will receive guidelines from Fernandez hospital)
- Adopt practice of RESTRICTIVE EPISIOTOMY
- Management of third stage of labor. – active management along with delayed cord clamping (in low risk cases)
- Start skin to skin early contact.
- Avoid routing suctioning of the newborn
- Need for child birth classes for enhancing co-operation of the mothers and their families

SESSION 4

Themes for discussion :

- ✓ Paramount importance of inculcating a culture of team spirit where respect and kindness form the hallmarks
- ✓ Use of evidence in practice and to form guidelines/protocols for ALL to use.

Outcomes :

Resolutions regarding work Culture and quality enhancement

- Inculcating a culture of team spirit where respect and kindness form the hallmark
- Have a team leader to spearhead the changes (Team will be formed under the leadership of Hon'ble Dr.Malik)
- Team building session -Mock drills for emergencies eg; crash caesarean section (courtesy Fernandez Hospital, Dr.Noozat)
- Protocol formation process by assessing our priorities (Fernandez hospital will share their labour protocol manual)
- QUICK REVIEW MEETS in cases with adverse unexpected or untoward outcomes.
- Develop a comprehensive dashboard
- Have 4 indicators and make it a point to get in the green zone of each
- Implement the hand-over session using The SBAR tool

AVENUES FOR RESEARCH :

To pilot-test the following :

- A separate cadre of Midwives to be trained and prepared in handling low risk peri-partum cases independently and basic obstetric emergencies related to pregnancy, child birth, newborn and postpartum through NURSE PRACTITIONER IN MIDWIFERY PROGRAM with appropriate inclusion of International confederation of midwives standards for Midwifery practice and with specific CERTIFICATION PROGRAMs in specific emergencies.
- Initial triage to affirm low and high-risk mothers using colour codes as GREEN, YELLOW, RED which will include assessment within first 15 minutes of admission and categorisation for further care using the Traffic light system
- Use of non- pharmacological methods for pain relief to be tested in our setting to enhance natural births
- Restrictive use of episiotomies to be tested for birth outcomes
- Early contact of mother and baby soon after delivery in vaginal as well as caesarean births to ensure thermoregulation, early bonding and establishment of breastfeeding and prevention of post partum blues.
- Management of third stage of labor. -- active management along with delayed cord clamping (in low risk cases) to evaluate wellbeing in the newborn
- Avoiding of routine suctioning of the healthy vigorous newborns and check for breast crawl benefits
- Concept of HEALTH VISITORS to be considered in our scenario to bridge need of continued health care and early diagnosis of postpartum depression in the post natal period (a long term goal)

Interdisciplinary Seminar on “Promotion of Breastfeeding – The Way Forward”

Interdisciplinary seminars comprise of involvement of two or more academic disciplines or fields of study to bring together a wide range of people from across the university to gain a deeper understanding of the interdisciplinary approach required to provide health care for particular health needs.

The procedure followed to conduct this seminar is as follows:

1. Decision by the organizing team on the theme
2. Identifying the expert (s)
3. Participation invitation to Heads of departments and post-graduate students of identified departments
4. Pre-test
5. Presentation by Expert on the chosen topics followed by open discussion
6. Presentation of clinical scenarios by post graduate students followed by inputs by Experts, HODs and faculty members
7. Post-test

An interdisciplinary seminar was held on 5th May 2017 and it was aimed at encouraging joint theoretical discourse between the experts, heads of departments, faculty and post graduate students of the department of Pediatrics, Obstetrics and gynecology, Psychiatry and Nursing on the theme, ‘**Promotion of breastfeeding: The way forward.**’

REGISTRAR

**SEMINAR ON
'PROMOTION OF BREASTFEEDING'
Resource person : Ms. Ruth Malik
Education Manager, Medela India Private Limited**

Date : 5th May, 2017

Venue : Education technology Cell, KIMS, 3rd floor

TIME	SESSION- I SEMINAR	PARTICIPANTS
9.30– 9.45am	Registration	50 participants from various disciplines
9.45- 10.00 am	Welcome & Introduction	
10.00 – 11.00 am	Physiology of Lactation	
11.00 – 11.15 am	COFFEE BREAK	
11.15 – 12.15 noon	Value of Human Milk	
12.15- 12.30 pm	Questions	
12.30- 1.30 pm	LUNCH BREAK	
1.30 onwards	SESSION- II SEMINAR CUM THINK- TANK THEME : PROMOTION OF BREASTFEEDING: THE WAY FORWARD	24 participants and 8 observers
1.30 – 2.30 pm	Presentation : Promotion of breastfeeding: The way forward for postpartum mothers, NICU and BFHI	University officers, Nursing Officer, Heads of Peds.& Ob-gyn. Departments,
2.30 – 3.45 pm	Think-tank : <ul style="list-style-type: none"> • Importance of breast milk in the postpartum unit and NICU • Issues around adoption of Baby Friendly Hospital Initiative 	Faculty members of Nursing College, Staff Nurses, Postgraduate students of dept.of Obgyn., Pediatrics, and Nursing
	DRAWING THE CONCLUSIONS	

Resolutions drawn through the brain-storming sessions were as follows:

Care of new born in the postpartum unit :

- Obstetricians to take on 'Breast-Crawl' (Only for vigorous babies)
- Assessment of baby 'at breast'(Only for vigorous babies)
- A vigorous & Healthy baby to be put to breast in the OT itself in cases of LSCS
- Quick review of breast feeding by the nurses as a routine activity, by a simple set of questions. Increasing involvement of the nurses.
- The nurses to be meticulous in documentation in order to identify all the reasons which make the mother walk up to the formula feed tin, work on them.
- Use of breast shield in cases of antenatal detection of retracted nipple
- Extraction of witch's milk prohibited in female newborns during bathing or cleaning the baby (to be included in Child birth Education module) -
- Stop giving post operative headlow, to avoid difficulty in feeding post CS
- Backrest | Privacy | soothing music – rooms dedicated to breast feeding
- Special dedicated nurse looking after breastfeeding
- Getting a Lactational consultant (IBCLC trained staff)
- Psychologists & Counsellors noting down problems a mother has during breast feeding having BPNI training for them
- Come out with the data about incidence of hypoglycaemia in Cesarean delivered babies and vaginally delivered baby.
- Monthly joint meeting of the paediatricians and obstetricians& nursing dept& counsellors regarding policy makings & problem solving

Care of new born in the Neonatal Intensive Care Unit :

- Feeding sick babies in the NICU with breast milk (Colostrum)
- Use of Breast pumps in the NICUs

Issues around adoption of Baby Friendly Hospital Initiative :

- Seriously adhere to the 10 commandments of BFHI , consider for evaluation for accreditation
- Plan for a milk storage units/ Milk management system (to store extra breast milk for cases where mothers are not producing enough milk) Long-term goals

Contribution to the initiative through child-birth education classes and breastfeeding education:

- Show mothers' videos of normal birthing & breast feeding as a part of antenatal classes
- Involve the grandmothers/mothers/mother in-laws ; as a support system to the mother (In child birth education classes)
- Pool in information from various departments regarding making modules in antenatal education
- Train the health care providers & attendants working in the wards regarding breast feeding and generate awareness (during breast feeding week)
- Breast feeding support group: Mothers helping other mothers (Long term Goal)
- Education of the dais/baby masseurs in villages (in the adopted villages)

Research avenues:

- Follow-up records of cases included in our pilot studies, to measure the impact of change
- Qualitative studies with inputs and data from mothers/grandmothers related to breastfeeding experience

'Workshop in Research Methodology'

8th to 13th August 2016

Krishna Institute of Medical Sciences Deemed University, Karad scheduled workshop in Research Methodology for Post Graduate Students from Faculty of Medicine, Nursing, Dental and Physiotherapy and also for Ph. D. Students as well as for interested faculty members.

Workshop was conducted as per the scheduled programme (Attached Time Table for the workshop) from 8th to 13th August 2016.

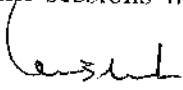

The 9th Certificate Course in Research Methodology was conducted for 6 full days. Every day irrespective of lunch break, lecture/discussion sessions were conducted for 6 hours. The total hours of lectures delivered/discussions in 6 days were 34½ hours.

Total 76 delegates from Medical, 12 from Dental, 12 from Physiotherapy, 14 from Nursing, & 4 Ph. D. Students and 3 faculty members attended the workshop (Total 121).

Workshop began with inaugural programme. Dr. A. K. Pratinidhi madam our former Director of Research was Chief Guest. Dr. Sanjay Mehendale, Director National Institute & Epidemiology (NIE), Dr. P. Ganeshkumar, Scientist C (NIE), Dr. Angeline Grace, Scientist C (NIRT), Chennai and Dr. P. M. Durgawale Prof. & Head, Dept. of Community Medicine were also present. In Dr. Pratinidhi madams speech she stressed upon importance of research. In welcome address Dr. Mrs. Supriya S. Patil explained about the importance of this workshop as well as plan for the same. Subsequently topics covered were right from introduction to research, study designs, sampling, sample size, statistical tests, analysis plan and also overview of qualitative research method.

Writing concept paper topic was covered on 2nd day and on same day concept paper template printouts were distributed to all delegates since then emphasis was given on concept paper writing. On 12th August 2016 in afternoon session individually students worked on their own dissertation topics and which was followed by presentations by randomly selected students on 13th August 2016 in morning session surprise MCQ Test – 30 Questions (30 marks) was conducted on 12th August 2016. Total 92 students appeared for examination. Out of them 67 (72.83%) students scored above 50%. Top 10 were awarded with trophy at the time of valedictory programme (List is attached)

All the sessions were informative while maximum sessions were interactive. Apart from

Dr. A. R. Risbud
Director of Research
KIMSDU, Karad

REGISTRAR
Krishna Institute of Medical Sciences
"Deemed To Be University", Karad

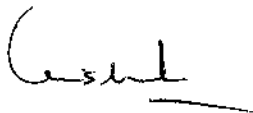

NIE and NIRT faculty topics covered by faculty from other institutes and KIMSDU were also of good quality. Pre and Post test evaluation will be completed within 2 wks.

For the valedictory programme Dr Patwardhan, observer from Maharashtra Medical Council was present, who was present throughout the workshop. Maharashtra Medical Council has given 4 credit points for this workshop. Certificates will be given to delegates who have satisfactorily completed the workshop. It was declared that last date for submission of protocols will be 24th August 2016.

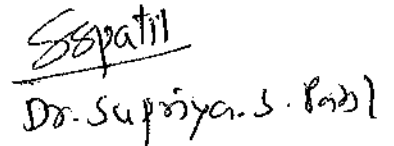

Total expenses for the workshop were 1,10,893/-. Detailed statement of expenses is attached herewith.

Dr. Mrs. Neelima A. Malik, Hon'ble Vice Chancellor, KIMSDU visited on 11th August 2016 addressed delegates. She encouraged students about participant in research activities as well as other extracurricular activities.

I am thankful to Dr. M. V. Ghorpade, Registrar, KIMSDU for his guidance and support. I extend my thanks to Dr. P. M. Durgawale, Prof and Head, Dept of Community Medicine for his encouragement, guidance and support. I extend my sincere thanks to all resource persons. I am very much thankful to Dr. Arun R. Risbud sir, Director of Research, KIMSDU as well as all staff members from research office; because of their co operation and help smooth conduction of workshop was possible. I extend my thanks to Miss. Archana Kaulgekar, Assist. Registrar, for her co- operation and help in MMC credit points.

SESSION	TIME	TOPIC	SPEAKER
1.	08.30-09.30 am	Registration	
2.	09.30-09.45 am	Inauguration	
3.	09.45-10.25 am	Opportunistic infections in PLHIV infection	Dr. Om Srivastava
4.	10.25-11.05 am	Treatment of HIV infection	Dr. Sanjay Pujari
5.	11.05-11.20 am	Tea Break	
6.	11.20-12.00 pm	Immunology of infectious disease	Dr. Om Srivastava
7.	12.00-12.40 pm	Second line HIV treatment	Dr. Sanjay Pujari
8.	12.40-01.20 pm	Enteric Fever	Dr. R.R. Desai
9.	01.20-01.35 pm	HPV Vaccine regime in the USA	Dr. Michael Light, USUHS, USA
10.	01.35-01.50 pm	Pre Exposure prophylaxis for HIV in the United States	Dr. Cynthia Philip, USUHS, USA
11.	01.50-2.50 pm	Lunch	
12.	2.50-4.15pm	Case discussion	All
13.	4.15-4.30pm	Tea	
14.	4.30-4.50pm	Vote Of thanks	

Discussion took place at the end of every session along with interactive session of case discussion. Every session was brilliant, all the delegates especially the residents were enthusiastic in participating in discussion.

POST TEST papers were given to the delegates at the end and later collected back.

Few questions asked by the delegates to the speakers.

Beautiful experiences shared by the speakers

Chair persons at the end of every session threw some light on the topics as well from their aspect. All the speakers & Chair persons were felicitated at the end of each session.

Photographic session took place from 01.50 pm to 2.00 pm where all the speakers, organisers & delegates participated.

Lunch break commenced at 1.50 pm and continued till 2.50 pm. A variety of vegetarian dishes were served. All the delegates were happy to have delicious food that was being served to them. During the lunch residents discussed with the speakers regarding their doubts and routine problems faced with Geriatric Patients.

There was a Discussion regarding all the Pre/Post test questions by all the 3 speakers. All the delegates, be it Residents or Consultants actively participated in the discussion. All the doubts of the delegates were in detail discussed by the Speakers.

The session ended at around 5.00PM in the Afternoon with all the delegates satisfied with amount of knowledge gained and the speakers satisfied with the response from delegates.

All the delegates at the end requested for similar kind of CME s to be conducted frequently by the department of medicine and congratulated the organising team for conducting such an extraordinary CME.

Workshop on Newer Assessment Methods & Mentorship

Report of the workshop

12/06/2017

A workshop consisting of two different topics was arranged by Education Technology cell of the University. Faculty from Seth G. S. Medical College, Mumbai were Resource persons for the workshop. Participants from all constituent colleges attended the workshop.

Newer methods for assessment are objective, based on day to day performance of the student and include direct observation of skills of student. These should be well known to teacher. Methods for implementation of them were discussed in detail in morning session of the workshop.

Afternoon session was on Mentorship. Mentorship is an essential step in achieving success in Academics. For medical students it is a must. The faculty explained the ways of developing effective mentorship and gave tips to become a good mentor. The topic was very interesting and created awareness in the participants.

Valedictory session was chaired by Dean, KIMS, Dr. S. T. Mohite.

Mean pretest score: 4.57/10

Mean post test score: 8.66/10.

Learning gain: 40.9%.

❖ **General Aim for workshop:**

The Aim for conducting this workshop was to make clear concepts like measurement and evaluation in education and its importance as its part of curriculum.

❖ **Objectives:**

At the end of workshop beneficiaries will be able to:

❖ **Introduction:**

Measurement and evaluation is key part of nursing curriculum. It clears terms and concepts like multiple choice question & item analysis, short answer & long answer question, OSCE & OSPE, VIVA VOCE. The beneficiaries of workshop were 2nd year Basic BSc nursing, & 2nd year post Basic BSc nursing, 1st year MSc nursing as this part in curriculum has much importance.

❖ **ORGANIZATION OF COMMITTEES FOR WORKSHOP:**

1. Invitation.

2. Organization and programming.
3. Budgeting.
4. Purchasing.
5. Reception.

PROGRAMME SCHEDULE

Pre-Test Session:

Krishna Institute of Nursing Sciences had given us opportunity to organize & experience the workshop. The workshop started at 8:30 am with Pre-test for all participants about “Measurement & Evaluation in Education.”

❖ First Session:

Introduction was given by Dr. YuvrajBhosale sir and it was a very interesting session. He explained us about the assessment and its types. Examples in the session helped all to engage their interest and also developed an urge to gain something new.

❖ Welcome and Felicitation of Guests:

It was our immense pleasure to have Dr. K.C.Wingkar (HOD of Dept. of Physiology, Karad) with us and it was because of her we got this opportunity to hear such great experts. Our guest speakers Dr. K. Shyamkishore (Professor Dept. of Anatomy Seth GS Medical College, Mumbai) he was the most senior of the guest speakers, Dr. Yuvraj.J.Bhosale (Professor Dept. of Anatomy Seth GS Medical College,

Mumbai), Dr. Praveen Iyer (Professor Dept. of Anatomy Seth GS Medical College, Mumbai) and our Principal Dr. Vaishali Mohite she always stood behind us and helped us a lot, her guidance was very useful for us. She has been our role supporter for every beginning. We had a short speech from guest speaker Dr. Yuvraj Bhosale sir and then the session was concluded and a short Tea-Break was arranged.

- **Standard setting in assessment:**

Session continued after short Tea-Break and it moved on with Dr. Praveen Iyer sir discussing on standard settings in assessment (Norm Reference & Relative Reference) variety of examples made class more attentive.

- **Multiple choice questions :**

Dr. K. Shyamkishore sir dealt with Multiple choice questions, its principles for formulation (stem, options) and example MCQ's were given as an activity which was very interesting for all and principles for formulation of MCQ'S were explained.

- **Long Answer Questions and Short Answer Questions :**

Session moved forward with Dr. Yuvraj Bhosale sir's discussion on Long Answer Questions and Short Answer Questions. The session proved to be more interesting which then it turned out to be fruitful discussion for formulation of LAQ's & SAQ's and their experiences motivated us to formulate questions of different types. We concluded our 1st session for lunch.

Second Session:

Second session after lunch was briefed by Dr. K. Shyamkishore sir on Item analysis & its demonstration. This session gave us an idea about analysis of formulated MCQ's and to which extent they are reliable or valid. Terms like difficulty index, discrimination index were also introduced to us. It was followed by some examples through which these terms should be calculated. A useful demonstration of Item analysis in Excel sheet to ease the purpose was also shown.

Then we moved onto topic OSCE & OSPE (Objective Structured Clinical Examination / Practical Examination) which was an interesting session as the examples were more oriented to us. Also an activity related to formation of stations were comprehensible to all of us. Examples stated, made more clear terms and facts in our mind.

The next part of session was most interesting one as it was VIVA VOCE session. It was dealt by Dr. Yuvraj Bhosale sir and the act enacted by all of the guest speakers created a centre of attraction for the entire class. And attention of all students was most noticeable during the time.

The last session gave us the complete summarization of the entire workshop as it was Blueprinting. It gave us brief ideas about Blueprinting and its formulation.

- **Post-Test Session:**

As per schedule a post-test was conducted for all participants.

- **Concluding with Feedback of Participants:**

We had short session of feedback from the students from 2nd year Basic BSc, 2nd year Post Basic BSc and 1st year MSc Nursing Students. Then workshop was concluded by a fabulous vote of thanks by our guide Mrs. Sheetal Samson Madam and guests were given Tulsi sapling as a token of thanks by our Principal Madam Dr. Vaishali Mohite.

CONDUCT OF WORKSHOP

- **Planning:**

Before two weeks we planned to conduct the workshop. We planned about organizing the various committee like Invitation, Budgeting, Reception and Organizing committees. We delegated responsibilities according to the committees.

- **Meetings:**

- 1) Budgeting was discussed between the committee members.
- 2) Materials essential for conducting the workshop were discussed among all committees.
- 3) Responsibility of guests was handed over to the reception committee.
- 4) Invitation committee was responsible for invitations of faculty members of KINS.
- 5) Entire organization for conducting the workshop was done by programming & organizing committee.

- **Implementations:**

Programme functioned smoothly, due to all concerned activities mentioned below:

- All physical arrangement of hall along with decoration were completed prior evening of workshop. Along that pre-test & post-test coding was also completed.
- Requisition forms were sent to concerned department.

- Invitation was given to all teaching faculty of KINS, second year basic BSC students and second year PB BSC students.
- PRE- TEST and POST -TEST of workshop was conducted by invitation and reception committee.
- **Brief Evaluation:**

Conduction of Workshop was very effective and good enough for students to comprehend . Under the guidance of Mrs. Sheetal Samson Associate Professor of KINS, Karad all committee members took responsibility & performed to their best during workshop

We all acquainted with the newer knowledge about conduction , organization & co-ordination of a workshop. We analyzed the results of PRE-TEST and POST-TEST. This workshop proved to be mandatory aspect for 2nd year basic BSc and 2nd year PB BSc and also 1st year MSc nursing. Although it was the part of their curriculum.

SWOT ANALYSIS FOR WORKSHOP

STRENGTHS:

- Collaboration among organizing team was seen.
- Physical set up of workshop was up to mark.
- Overall environment of workshop proved to be fruitful for all learners.
- Feedback received proved to be positive outcome of workshop.

WEAKNESSES:

- As it was first exposure to such occasion there were series of hurried sequences.
- Lack of group control was seen.
- Transition between the sessions were inappropriate.
- Overall planning of programme was not up to the mark.

OPPORTUNITIES:

- It provided an even & equal opportunity for all organizers to lead.
- It provided an educational platform for all the learners through nursing perspective.
- Provision for sense of responsibility & creativity for all.
- Enhancement of soft skills.

THREATS:

- Stress bearing capacities should be improvised.
- There should control on group.
- Sense of responsibility must inculcated.
- Confidence level must be boosted

Feedback of participants

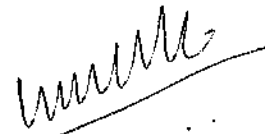

Good afternoon all .My self Agla Sebastian is here to give feed back and vote of thanks on be half of 2nd year B.sc Nursing students.

First of all I thanks to my institute for conducting such a wonderful workshop for us.It is my first experience of attending the workshop and it is very fruitful for all.

We really found it is very effective as we have these topics included in our syllabus.

We all came to know about Standard setting in assessment,LAQS AND SAQ, MCQ formation, Item analysis and its demonstration, OSCE & OSPE, Viva voce. Blue printing.

A big thanks to Dr. k shyamkishore sir ,Dr. Praveen Iyer sir and Dr.YuvarajBhosale sirFor their precious guidance regarding Measurement And Evaluation. That is very useful in our future life .

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	42
2	Total duration of the program	8 hours

The entire training was divided into three sessions as below:

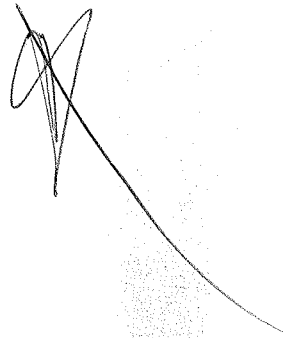

- 1.Introduction of BioMedical Waste
- 2.MPCB rules on handling BMW
- 3.Precautions and curative actions

The entire session was an interactive one with ample use of audio – visual aids for maximum efficiency and optimal reach. A separate question time was allotted to clarify doubts of the participants.

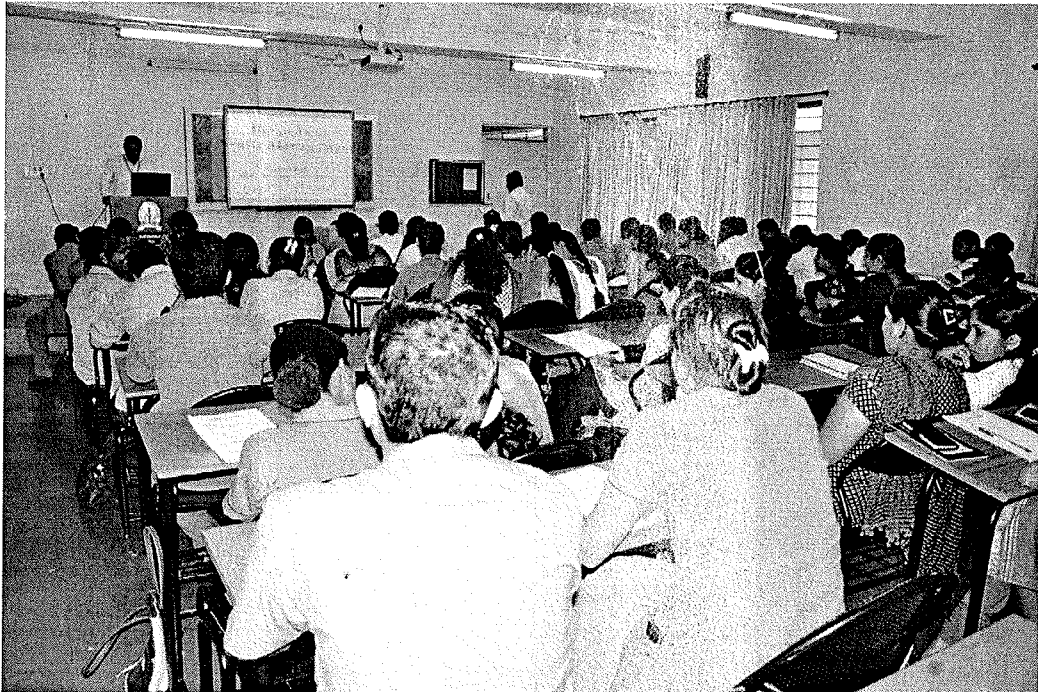

In first session, we have covered the introductory part in which we see the definition, categories, examples & sources of generation of biomedical waste. In second session, we have seen the

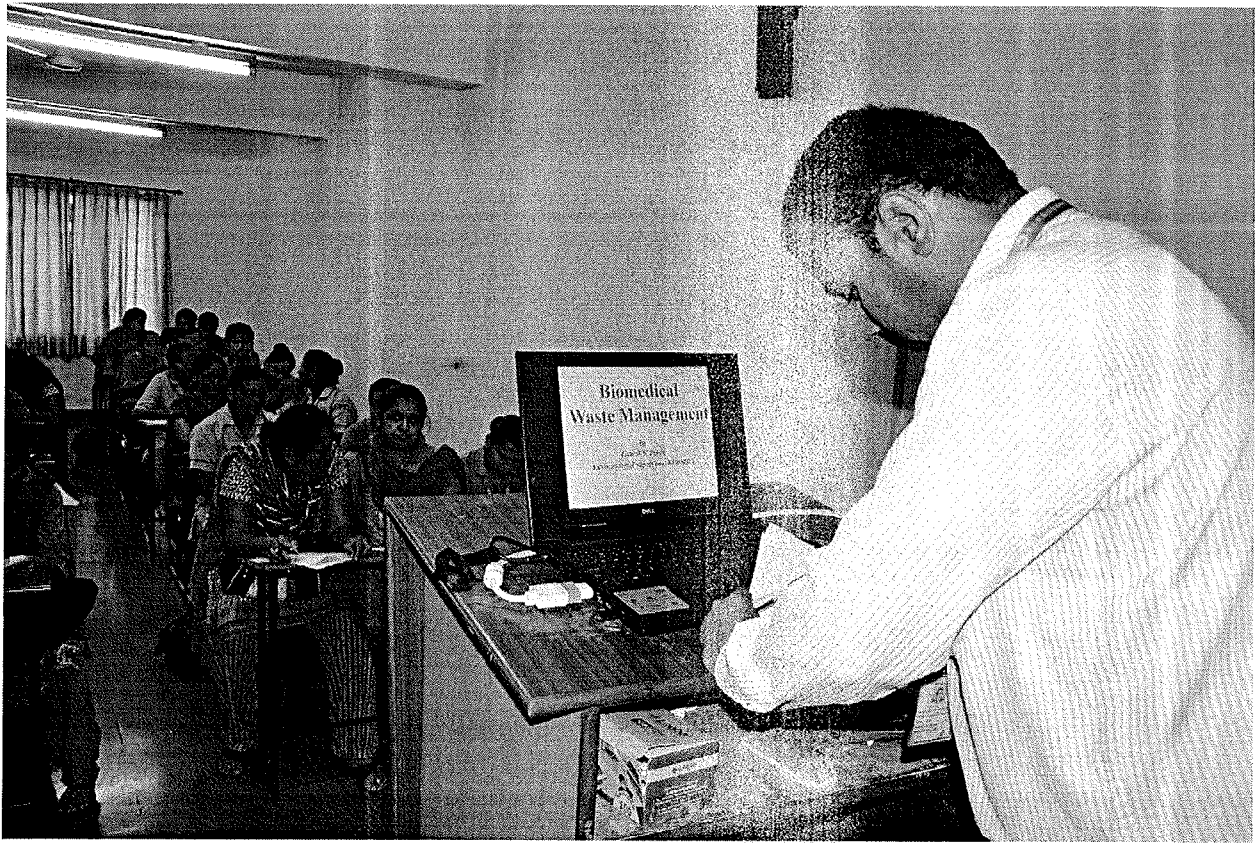

rules & regulations of MPCB for the collection, segregation, treatment & disposal of biomedical waste. In last session, we have seen the type of PPE's uses for the handling of biomedical waste & what care should be taken while handing, collecting, segregating disposing of the biomedical waste. Also we have seen that what corrective action should be taken after exposing to biomedical waste. Then lastly we have taken post training exam of the participants & closed the training program.

Report On

Workshop – 'Different Pedagogical Techniques'

Name of the Topic : Different Pedagogical Techniques

Date : Wednesday, 14th September, 2016

Time- 09 am to 5 pm

Venue: Faculty of Allied Sciences, Lecture Hall

Name of the Speaker : Mr. N. D. Chivate, Senior Lecturer, KCT's Krishna College of Pharmacy

No. of Participant : 7

Introduction of Programme : Pedagogy is the method and practice of teaching especially as a academic subject or theoretically concept. In this workshop different pedagogical techniques that are useful for teaching, learning process are explained. One of the most powerful pedagogical example is where students and teachers produce work and learning together.

Includes Level of Event - College level

Organized Individually by : Faculty of Allied Sciences.

Schedule of the Programme : Introduction of guest speaker, main lecture, felicitation of guest speaker.

Objectives of the Programme:

Upon participation in the programme the participant/learner should be able to:

- 1) Gain knowledge about pedagogy and the principles for effective pedagogy.
- 2) Get idea how to design the curriculum in accordance to the need of the students
- 3) Know the modern teaching techniques.
- 4) Examine different types of learning styles.

Brief Description of the Programme :

A workshop was organized on Wednesday 14th September 2016 on 'Different Pedagogical Techniques' by Faculty of Allied Sciences (Microbiology, Biotechnology) KIMSDU Karad. This workshop was attended by faculty members, non-teaching and technical staff of Faculty of Allied Sciences. The workshop was conducted by Mr. N. D. Chivate, Senior Lecturer, KCT's Krishna College of Pharmacy, Karad. Contents of workshop included: modern teaching techniques, principles of pedagogic methods and its effectiveness in teaching and learning, effective pedagogical techniques including whole class and structured group work, guided learning etc. .

Venue: Medicine Dept. Lecture Hall

Date: 10.02.17

Time: 09:00 – 17:05 (All to be seated by 08:50)

Topic: BioMedical Waste Management

Trainer / Speaker: Mr. Ganesh Patole

The PDP was conducted on the above mentioned date. Details of the program are as under:

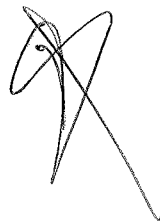

Sr. No	Details	Details
1	Total number of participants	43
2	Total duration of the program	8 hours

The entire training was divided into three sessions as below:

- 1.Introduction of BioMedical Waste
- 2.MPCB rules on handling BMW
- 3.Precautions and curative actions

Dr. Mrs. Karande (HoD – Microbiology); graced the occasion with her presence along with Dr. Mrs. Harsha

The entire session was an interactive one with ample use of audio – visual aids for maximum efficiency and optimal reach. A separate question time was allotted to clarify doubts of the participants.

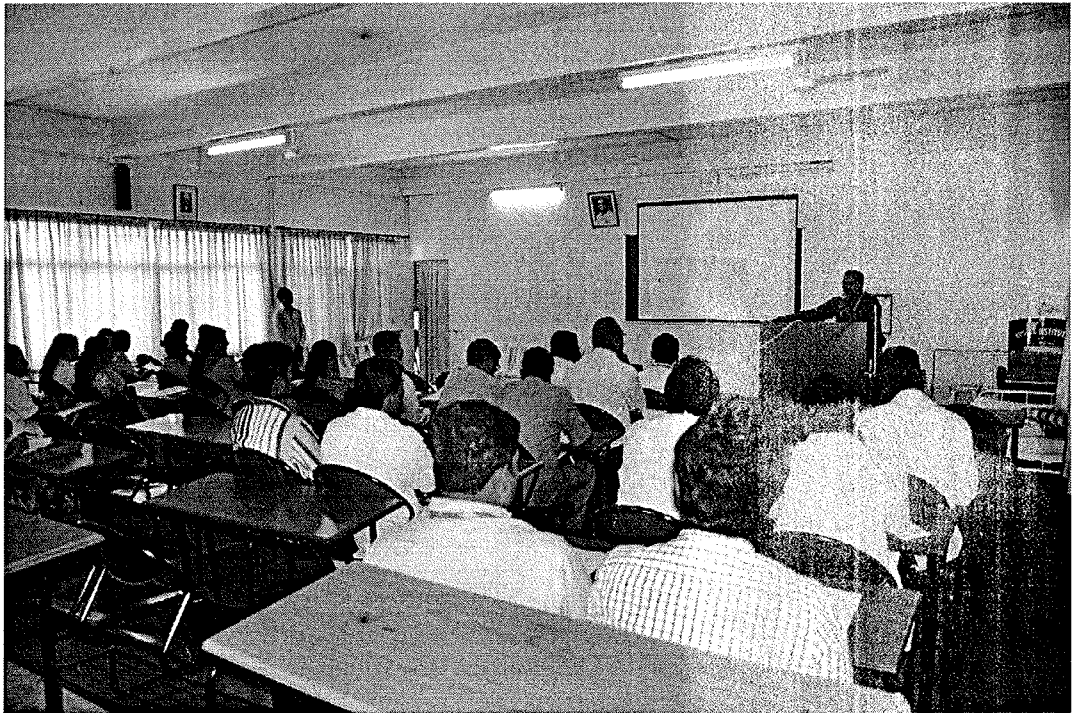

In introductory session, we have covered the definition, categories, examples & sources of generation of biomedical waste.

After that we have seen the rules of MPCB for biomedical waste management. In this, we have seen the different types of color coded containers to collect the biomedical waste. Then we have seen the segregation process for biomedical waste. Also we have seen the different disposal process for different categories of biomedical waste.

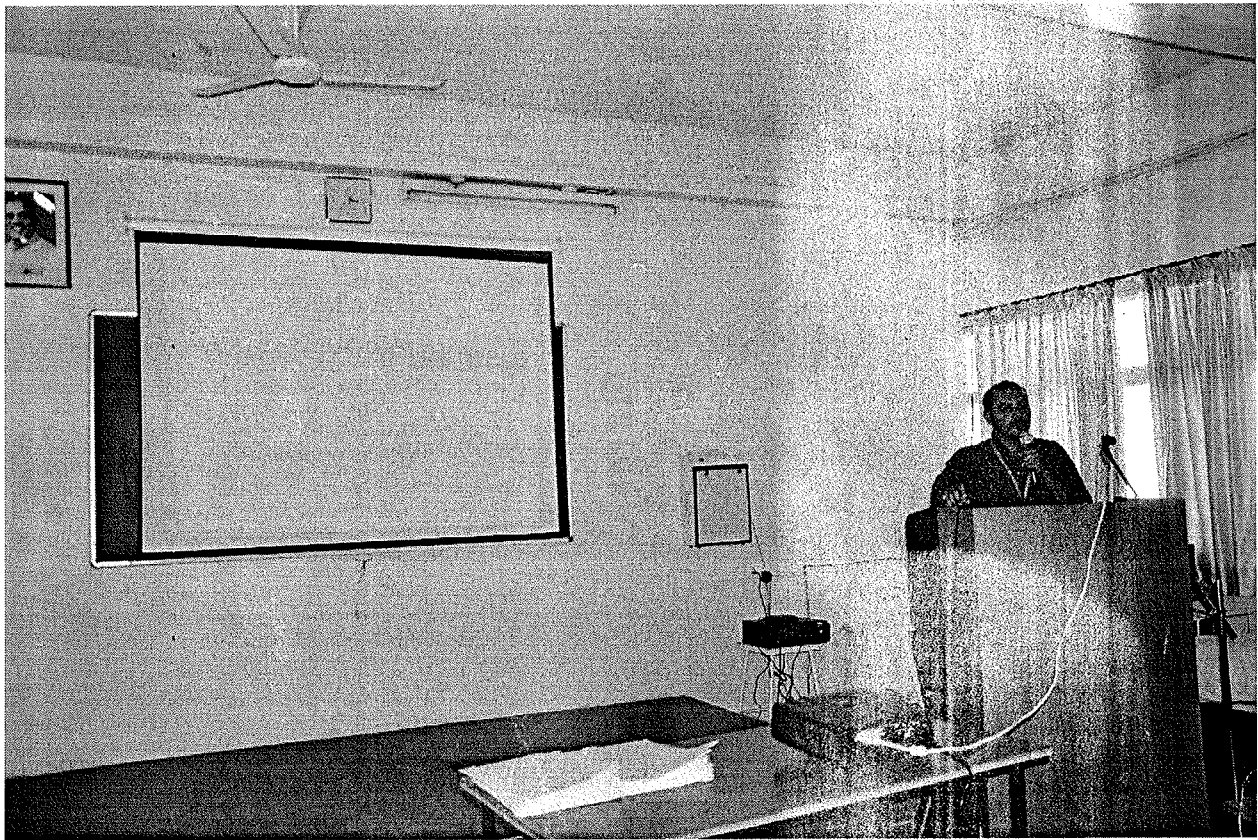

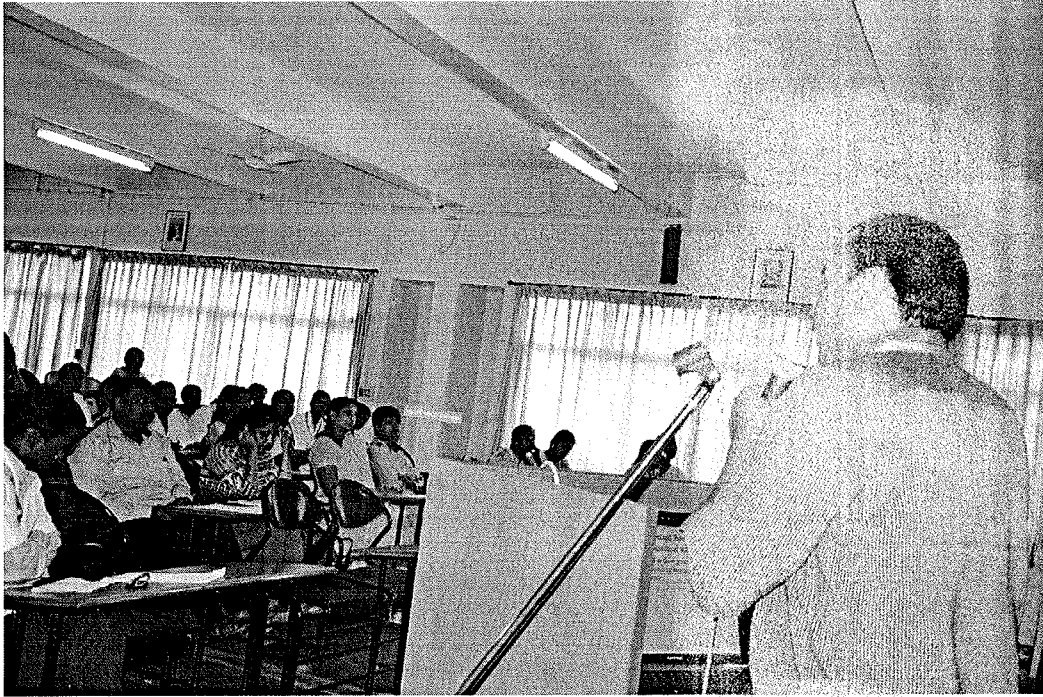

In last session, we have seen the usages of PPE's while handling of biomedical waste. In last session, we have taken post training exam for participants & closed the training program.
